SUNSI FEATURED IN INVESTOR'S BUSINESS DAILY ADVERTISEMENT

New York, June 8, 2011 – SunSi Energies, Inc. (“SunSi”, OTCQB: SSIE) a leading specialty chemical provider to the solar industry, announced today that as part of its recently launched investor visibility campaign, the Company is featured in an advertisement in today’s edition of the national financial publication, *Investor’s Business Daily*.

The advertisement in today’s edition, and a future ad to be posted next week, are part of the Company’s overall efforts to engage in a comprehensive investor relations program in order to broaden the visibility and awareness of SunSi.

David Natan, SunSi’s Chief Executive Officer stated. “We are pleased that we remain on track to achieve our production targets and financial goals. We are now turning our attention to raising awareness of the current positioning and future prospects of SunSi with a broader base. What better way than to leverage national publicity and exposure through one of the leading financial daily publications, *Investor’s Business Daily*.”

Richard St-Julien, President and Chairman of Chinese Operations, stated, “*Investor’s Business Daily* has a great reputation and tremendous following among all stock investors. We will continue to implement varied yet targeted investor relations strategies and campaigns over the next few months to show our achievements and the opportunity at SunSi to the public.”

About SunSi Energies Inc.

SunSi Energies Inc. (OTCQB:SSIE) acquires and develops high quality TCS production facilities that are strategically located and possess a potential for future growth and expansion. U.S-based SunSi controls approximately 47,000 metric tons of TCS production in China.

TCS is a chemical primarily used in the production of polysilicon, which is an essential raw material in the production of solar cells for PV panels that convert sunlight to electricity. TCS is considered to be the first product in the solar PV value chain before polysilicon, and is also the principal source of ultrapure silicon in the semiconductor industry. Forward-Looking Statements

This news release contains forward-looking statements related to the future financial condition and results of SunSi's operations.

Forward looking statements are based on SunSi's current expectations and estimates regarding: TCS markets and industry in which we operate being the most profitable segment of the solar value chain, management's beliefs and assumptions regarding these markets, approximately 75% of the current worldwide use of TCS based PV panels, increasing trading volume and price of SunSi's stock, future growth prospects, future earnings and revenue projections, the percentage of solar panels requiring TCS, completion of our Wendeng expansion plan, the size of SunSi's TCS capacity compared to other Chinese TCS companies, the effectiveness of our Investor relation campaign and other acquisition transactions. These statements are subject to important risks and uncertainties, which are difficult to predict, and assumptions which may prove to be inaccurate.

Some of the factors that could cause results or events to differ materially from current expectations include, but are not limited to: general economic conditions, market or business conditions; general stock market performance, the performance of the solar industry in general, changing competitive environment; changing regulatory conditions or requirements; changing technology; raising sufficient capital to pay the Wendeng shareholder and fund the expansion of Wendeng to 75,000 MT, the price of TCS sold within China and outside of China, attaining projected revenue of \$20-\$25 million per year at Wendeng, the level of production by the Wendeng factory, Baokai's success in attaining new clients under its distribution agreement, and success in implementing productivity initiatives.

Some of these factors are largely beyond the control of SunSi. Should any factor impact SunSi in an unexpected manner, or should assumptions underlying the forward-looking statements prove incorrect, the actual results or events may differ materially from the results or events predicted. All of the forward-looking statements made in this document are qualified by these cautionary statements, therefore, there can be no assurance that the results or developments anticipated by SunSi will be realized or, even if substantially realized, that they will have the expected consequences for SunSi. Readers should not place undue reliance on any forward-looking statements. Furthermore, SunSi disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or any other occurrence.
