

SunSi Files for NASDAQ Capital Market Listing

NEW YORK, Sept. 28, 2011 (GLOBE NEWSWIRE) -- SunSi Energies Inc. ("SunSi") (OTCQB: SSIE), a provider of the specialty chemical trichlorosilane ("TCS") to the solar industry, announced today that it has filed an application to list its common stock on the NASDAQ Capital Market. The NASDAQ listing application is subject to review and approval by NASDAQ's Listing Qualifications Department for compliance with all NASDAQ Capital Market Standards.

David Natan, SunSi's Chief Executive Officer, commented: "SunSi is ready to list on a larger, high profile exchange and believes that the NASDAQ is the right marketplace for our shares to trade. Listing on the NASDAQ should enable us to broaden our investor reach, increase visibility to the investment community, and add liquidity to our shares. We continue to expand our TCS operations in China and last week announced revenue guidance for fiscal 2012 in the range of \$49 to \$52 million, which is a substantial increase over the \$15.1 million in revenue reported in fiscal 2011."

About SunSi Energies Inc.

SunSi Energies' goal is to become one of the world's largest producers of trichlorosilane ("TCS"). The Company plans to achieve this objective by acquiring and developing a portfolio of high-quality, scalable, strategically located TCS production facilities that possess a potential for future growth and expansion. U.S. based SunSi controls approximately 55,000 metric tons of TCS production in China. TCS is a chemical primarily used in the production of polysilicon, which is an essential raw material in the production of solar cells for PV panels that convert sunlight to electricity. TCS is considered to be the first product in the solar PV value chain before polysilicon, and is also the principal source of ultrapure silicon in the semiconductor industry. For further information, please visit the company's website at <http://www.sunsienergies.com>.

Forward-Looking Statements

This news release contains forward-looking statements related to the future financial condition and results of SunSi's operations. Forward looking statements are based on SunSi's current expectations and estimates regarding: TCS markets and industry in which we operate being the most profitable segment of the solar energy value chain and management's beliefs and assumptions regarding these markets, NASDAQ approval for a listing of our common stock on the NASDAQ Capital Market, achieving fiscal 2012 financial guidance, increasing the trading volume and price of SunSi's stock, future earnings and revenue projections, receiving additional TCS orders from companies outside of China, completion of our Wendeng expansion plan, achieving our overall expansion plan, and other TCS related acquisition transactions. These statements are subject to important risks and uncertainties, which are difficult to predict, and

assumptions which may prove to be inaccurate. Some of the factors that could cause results or events to differ materially from current expectations include, but are not limited to: general economic conditions, market or business conditions; general stock market performance; the performance of the solar energy industry in general; changing competitive environment; changing regulatory conditions or requirements; changing technology; raising sufficient capital to fund the expansion of Wendeng to 75,000 MT; the price of TCS sold within China and outside of China; the level of production by the Wendeng factory; our joint venture Baokai's success in attaining new clients under its TCS distribution agreement; the decision by the NASDAQ to reject the Company's application for listing; the decision by companies located outside of China to purchase TCS and success in implementing productivity initiatives. Some of these factors are largely beyond the control of SunSi. Should any factor impact SunSi in an unexpected manner, or should assumptions underlying the forward-looking statements prove incorrect, the actual results or events may differ materially from the results or events predicted.

All of the forward looking statements made in this document are qualified by these cautionary statements, therefore, there can be no assurance that the results or developments anticipated by SunSi will be realized or, even if substantially realized, that they will have the expected consequences for SunSi. Readers should not place undue reliance on any forward-looking statements. Furthermore, SunSi disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or any other occurrence.
