

FOR IMMEDIATE RELEASE:

**SunSi Energies CEO, David Natan Featured on  
SmallCapVoice.com  
Provides Company Overview and Strategy Update**

**NEW YORK, March 26 2012 (GLOBE NEWSWIRE), SunSi Energies Inc. ("SunSi") (OTCQB: SSIE)**, a provider of the specialty chemical trichlorosilane ("TCS") to polysilicon makers in the solar industry, announced today that David Natan, Chief Executive Officer, provided a company overview and strategy update featured on SmallCapVoice.com

David Natan, SunSi's Chief Executive Officer stated, "We are pleased to provide a company update and discuss our expanded strategy in the solar value chain. We are confident that the successful implementation of our strategy will advance our overall presence in the solar market while complementing our core business in China."

The recording of the interview is now available at: <http://smallcapvoice.com/blog/3-23-12-smallcapvoice-interview-with-sunsi-energies-otcqb-ssie>

**About SunSi Energies Inc.**

SunSi Energies' goal is to become one of the world's largest producers of trichlorosilane ("TCS"). The Company plans to achieve this objective by acquiring and developing a portfolio of high-quality, scalable, strategically located TCS production facilities that possess a potential for future growth and expansion. U.S. based SunSi controls approximately 55,000 metric tons of TCS production in China. TCS is a chemical primarily used in the production of polysilicon, which is an essential raw material in the production of solar cells for PV panels that convert sunlight to electricity. TCS is considered to be the first product in the solar PV value chain before polysilicon, and is also the principal source of ultrapure silicon in the semiconductor industry. For further information regarding SunSi, please visit the company's website at <http://www.sunsienergies.com>.

**Forward-Looking Statements**

This news release contains forward-looking statements related to the future financial condition and results of SunSi's operations. Forward looking statements are based on SunSi's current expectations and estimates regarding: TCS markets and industry in which we operate being the most profitable segment of the solar energy value chain and management's beliefs and assumptions regarding these markets, NASDAQ approval for a

listing of our common stock on the NASDAQ Capital Market, increasing the trading volume and price of SunSi's stock, future earnings and revenue projections, receiving new TCS orders, the price of TCS, the level of orders, completion of our Wendeng expansion plan, rebound of the solar market in 2012 obtaining new customers outside of China, achieving our overall expansion plan, other TCS related acquisition transactions and consummating acquisitions. These statements are subject to important risks and uncertainties, which are difficult to predict, and assumptions which may prove to be inaccurate. Some of the factors that could cause results or events to differ materially from current expectations include, but are not limited to: general economic conditions, market or business conditions; general stock market performance; the performance of the solar energy industry in general and the price of polysilicon; changing competitive environment; changing regulatory conditions or requirements; changing technology; raising sufficient capital to fund the expansion of Wendeng to 75,000 MT and to fund potential acquisitions; the price of TCS sold within China and outside of China; the level of production by the Wendeng factory; our joint venture Baokai's success in attaining new clients under its TCS distribution agreement; the decision by the NASDAQ to reject the Company's application for listing; the decision by companies located outside of China to purchase TCS and success in implementing productivity initiatives. Some of these factors are largely beyond the control of SunSi. Should any factor impact SunSi in an unexpected manner, or should assumptions underlying the forward-looking statements prove incorrect, the actual results or events may differ materially from the results or events predicted. All of the forward looking statements made in this document are qualified by these cautionary statements, therefore, there can be no assurance that the results or developments anticipated by SunSi will be realized or, even if substantially realized, that they will have the expected consequences for SunSi. Readers should not place undue reliance on any forward-looking statements. Furthermore, SunSi disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or any other occurrence.
